

Market Labour Schedule

PLACEHOLDER - DO NOT ISSUE TO PROSPECTS.

The actual labour schedule is market-specific and should be reviewed directly with the prospective Renovation Partner. Insert the approved territory schedule here before launch.

Confirmed compensation principle

For an approved external trade working through the Renovation Partner, Project Management compensation equals **25% of the approved amount paid for that trade, before taxes.**

Example: an approved external-trade amount of \$2,000 before tax creates \$500 of Project Management compensation, in addition to the approved trade amount.
